

Chris Chapman's Watercolor AND Water MIXABLE OILS WORKSHOP

*Here's
your
chance
to create
a large
finished
studio
painting
from
small
field
sketches.*

On location at beautiful Arroyo Hondo Canyon, *Jewel of the Gaviota Coast*, the 782 acre Preserve will be ours exclusively for *Day 1*. You'll be painting small, quick studies, drawing compositional and value thumbnails, shooting reference photos, and creating ideas for the studio.

On *Day 2 & 3*, we work in The Rusty Barn studio to create larger finished pieces from all of your sketches, paintings, notes and photos. Here we slow down to create thoughtfully composed pieces. There will be demos and lots of individual attention.
